The Photography Show from AIPAD: Classic Icons and Stunning Contemporary Works

Here's a preview of the wide range of photography you can see (and purchase) at the Park Avenue Armory this year.

The Photography Show (https://www.aipad.com/show) presented by AIPAD will take place **April 22-26, 2026** at the Park Avenue Armory in New York City. This yearly gathering features a wide variety of historically significant and formally innovative work, as well as some of the most dynamic examples of contemporary voices. The breadth of work reminds you how wonderfully diverse and inspiring the language of photography can be.

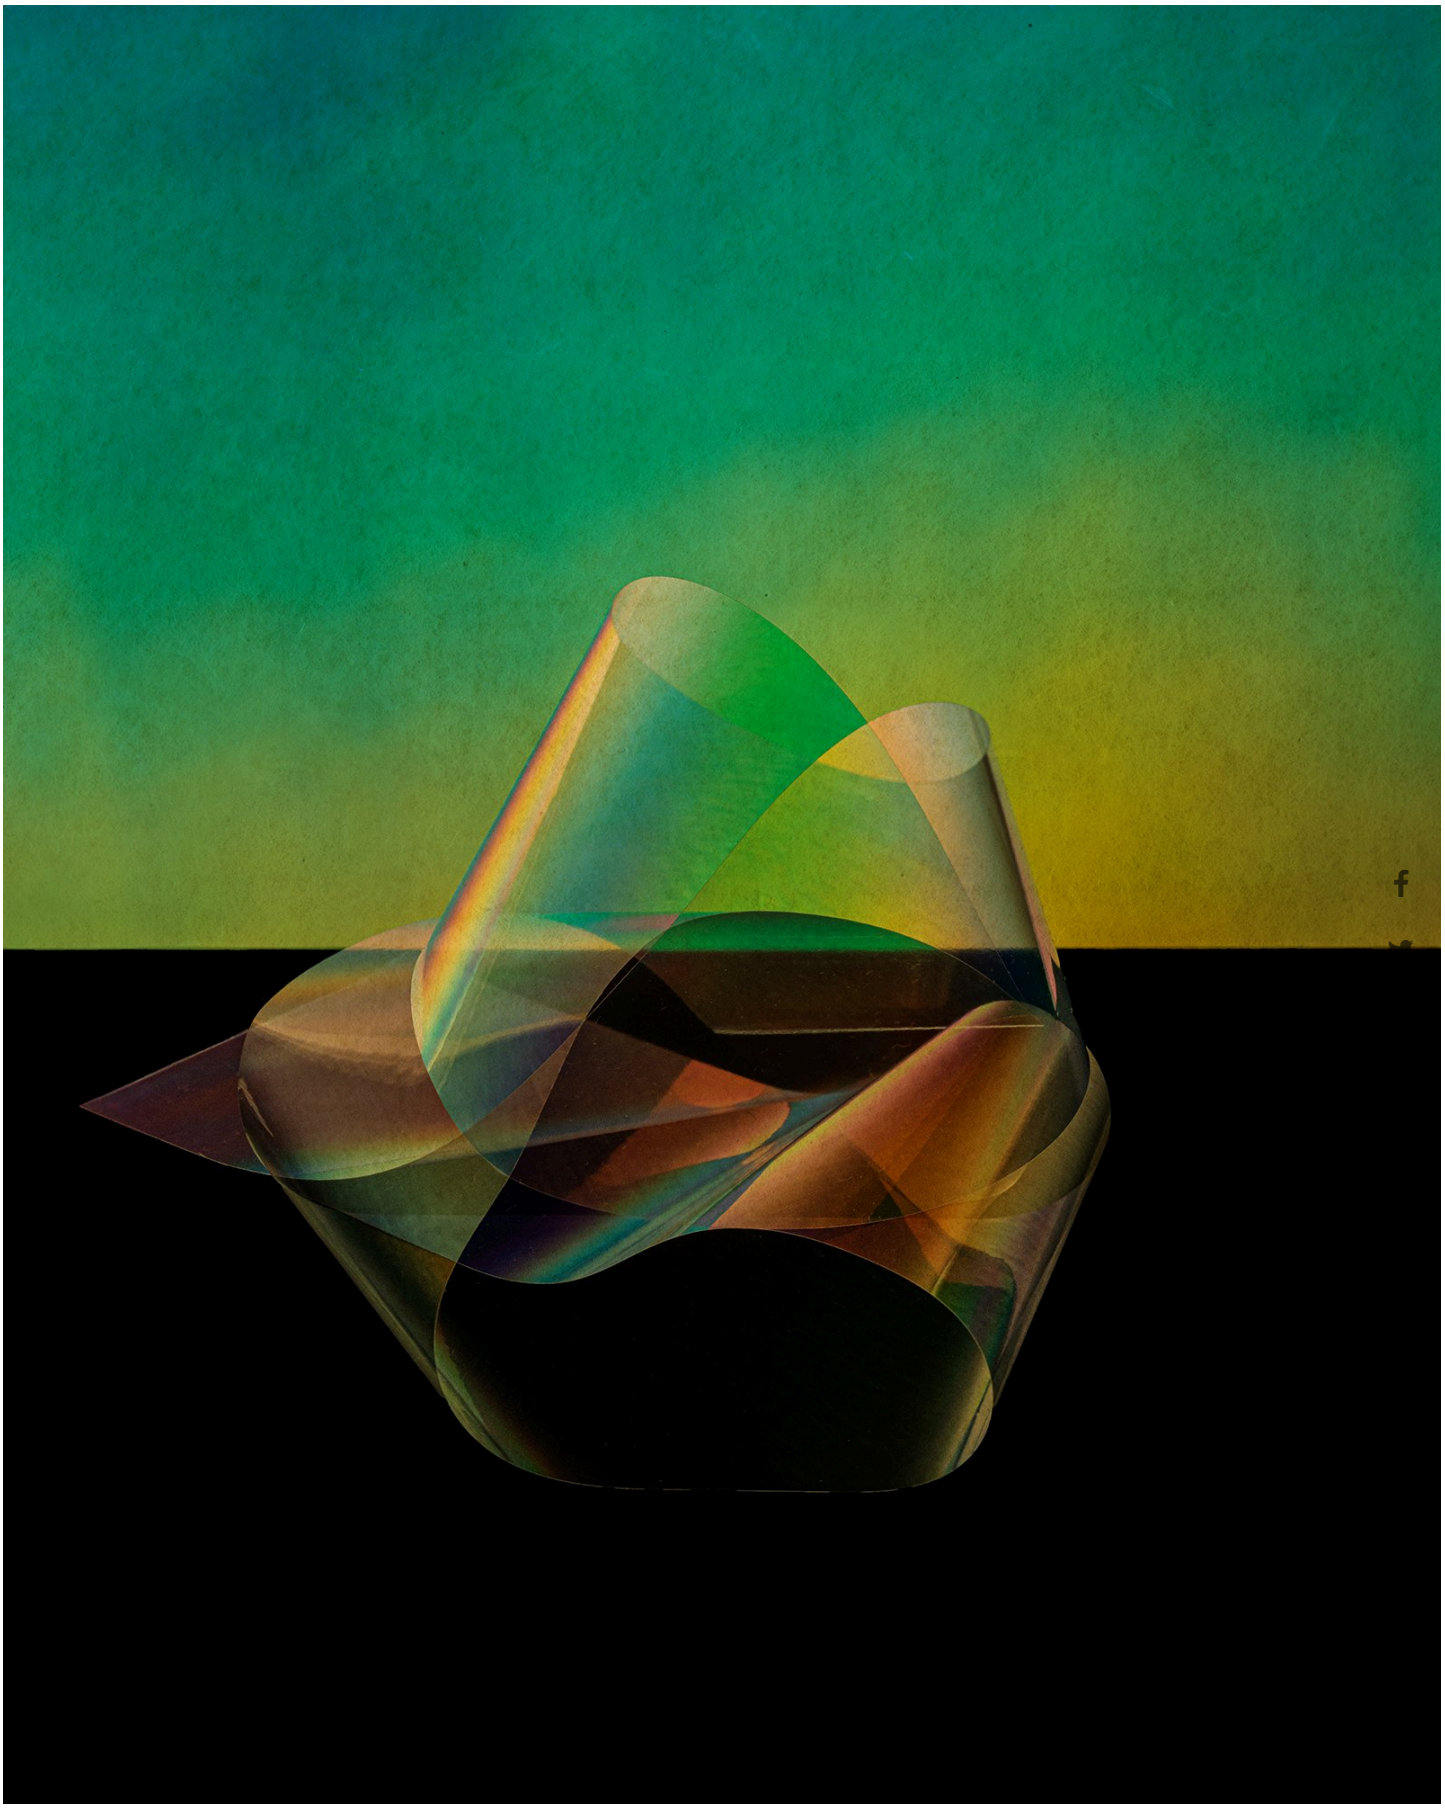

Showcasing more than 60 exhibitors, daily programming from the acclaimed AIPAD Talks Series, in-booth artist talks, book signings, and more, this is a delightful treat for collectors and photography enthusiasts.

LensCulture is pleased to share 24 photos here — just a small preview of what you can discover at the show. Don't miss it!
